

# PRODUCT SHEET:

## RAMPTECH® CRUSH-PROOF LAVATORY HOSE

### Strength and durability have a new benchmark.

The constant abuse inherent to the ramp has met its match, and then some. The RAMPTECH® Crush-Proof Lavatory Hose is constructed of all thermoplastic polyurethane reinforced with a super tough urethane helix. Translation? It can handle just about anything a busy ramp throws at it...including the ability to withstand being run over by vehicles as well as being constantly stepped on and repeatedly dragged across ramp surfaces.

Complementing its unmatched strength and durability, the top quality RAMPTECH® Crush-Proof Lavatory Hose also features thermally bonded cuffs to provide a tight and dependable seal for all styles of lavatory fittings. Highly flexible design provides convenient use and a smooth interior delivers unrestricted flow. The hose is made without glues, cements or adhesives and is also chemical, moisture and UV/ozone-resistant.

### FEATURES

- ✓ Crush proof. Able to withstand being run over by vehicles and/or stepped on
- ✓ Thermally bonded cuffs attached to the ends of the hose to provide tight seal for all fittings
- ✓ No glues, cements, or adhesives are used
- ✓ Designed especially for the rigors of the ramp environment

Generous cuff for a proper fit
